JINS
Company Limited

connecting the future

with wealth of industry experience, a well resourced team, quality assurance and complying with industry's best practices, we raise the bar in project executions.

Roads :: Buildings :: Civil works
Construction :: Supplies :: Projects

Executive Summary

Jins Company Ltd is a very progressive and efficient driven limited liability whose existence and operations are duly registered and licensed in compliance with all statutory requirements and regulations with the mandated authorities and institutions of the republic of Ghana. Since its incorporation and commencement of operations in September 1999, our business have grown over the years. Our main focus then was to undertake projects in Telecom Infrastructure and Civil Works. Over the years the company has grown in assets and resources making room for diversification of its portfolio to now include Electricals, Buildings and Road Construction, Water related projects, Oil, general supply of goods and services.
As it were, the building and construction industry is a very sensitive and integral part of every economy and as it were very instrumental to the livelihoods of the citizens of any country. More so with respect to safety and the provision of shelter cannot be overlooked. The industry's activities connects lives, support survival and promotes growth and development of businesses and the survival mechanisms of lives within communities.

Presently in Ghana, there is an on-going transformation and changes happening on the construction front in the country which is characterized by the development of new projects (from high rise buildings, ultra-modern office complexes, affordable housing), construction of new connecting roads (intra & intercity construction) and other municipal projects coupled with the unbridled acquisition of land and property for real estate. This lucidly provides the evidence about the expansion rate and growth of building and construction despite the other challenges that plague the sector (inflation, supply of materials, competition, market economic forces, etc.). Yet in the presence of all the following challenges, it is also evident, that the level of present executions within the industry particularly pertaining to the construction of buildings and roads are not up to global best practices or international standards. More to this, the 2016 Ghana Infrastructure Report card launched by the Ghana Institute of Engineers (GhIE) which covered three sectors, namely Roads & bridges which was rated D3, Potable water also rated D3, and Electric Power was giving D2. A cumulative score of D3 was awarded in total. D3 being the least mark in the three tier marking scheme (www.myjoyonline.com).

It is this identified open window and dawning opportunities within the industry that Jins Company Ltd has been capitalizing and leveraging on since its entry into the market. As a focused business, Jins Company Ltd has over the years with continuous improvement on different levels and types of projects brought a fresh wind of change into the execution of projects through the increase and re-investment of equity coupled with efficient resources (equipment, fixtures, tools & technology), highly skilled and very competent labor force plus a competent management who are ready to raise the standards with project executions in the industry through a flawless execution approach that creates shared value and wealth for all stakeholders.

Introduction

Jins Company Ltd is a very progressive and efficient driven limited liability whose existence and operations are duly registered and licensed in compliance with all statutory requirements and regulations with the mandated authorities and institutions of the republic of Ghana. As a well-structured company it strives to constantly over the years fulfilled its projects executions in accordance with industrial best practices and guidelines coupled with professionalism and competence.

Vision

We fervently aspire to become a reference point and prime-mover in the building & road construction industry by aggressively pursuing and flawlessly executing government and private projects within Ghana, the sub-region, and elsewhere on the African continent.

► Mission

In furtherance and fulfillment of our bold vision, we strive to create project processes based on good reputation and proven track record backed by solid completed projects and contracts which affords our clients value for their investments. This we hope to achieve through sound and ethical business principles, consistent delivery and reliance on technology and efficient equipment coupled with key learnings from other developed markets.

► Company Objectives

1. To deliver services on time with the highest standard of professionalism
2. To dominate our field of work with "a second to none service" delivery
3. To establish a reputation of ensuring quality service at all times

► Strategic Sourcing

As part of our operational strategy, we deploy a strategic sourcing process in the procurement of project materials and support in according to the specifications given by our clients. We do this to help us get the best human capital plus project materials in their right quantities, grades at very competitive prices.

► Quality Assurance

Quality assurance is paramount to the success and progress of every business with regards to project execution and delivery. With the significance of quality assurance, we painstakingly focus on ensuring service excellence through the delivery of timely completed projects grounded by planned periodic monitoring, supervision and implementation of set objectives, project guidelines & specifications and best practices.

Brand Essence & Core Values

Its in our business DNA

To be able to deliver on our promises to the market coupled with our clients expectations as well as complying with established industry guidelines, our business is guided by the following values and culture:

► **Professional** – we hold ourselves responsible and accountable by exhibiting professionalism at every level of our business

► **Safety Culture** – our work is about safety and this is how we live and thrive. "One mistake is one too many". To this end we ensure that we ensure that we are critical about safety from every level of our execution process. This is our insurance for our investment.

► **Meticulous** – we are thorough in our executions and have no room to entertain substandard executions. We go through the whole nine yards to ensure that our clients are served on the quality we promised.

► **Leadership** – we demonstrate leadership at every level of our executions. Through our procurement process to the engagement of labor; every step of our work process; we lead our projects, processes and people. This way, we get the expected outcomes from our projects.

► **Customer Focus** – we dote on our business through a customer centric approach towards executions. We manage our clients by keeping our business engagements with professionalism, effective communication, good customer service and prompt feedback every step of the project process.

Logistics & Resources

► Project Portfolio & Service Competencies

As experts and experienced performers in the business, we specialize in Telecom Infrastructure and Civil Engineering Works, construction of buildings and road construction executions. We also have diversified interests in the execution of water related projects, Electrical works, oil, general supplies of goods and services.

► Resources & Equipment Holdings

As a well-resourced company we have over time invested and continue to re-invest into the company with respect to equity, human capital and equipment holdings. These we ensure that they well maintained to deliver results at optimum capacity.

Management & Execution Team

For a successful project execution and the running of our business apparatus, we have a carefully select team comprising of a varied mix of skillful and high performing professionals plus third party staff who assist us with our project executions and engagements. Below are the details of our winning execution team members with their corresponding credentials spanning from management team, projects supervisory team, to third party labor force.

We create synergy For a flawless Execution. This is our Way of delivering Value for money.

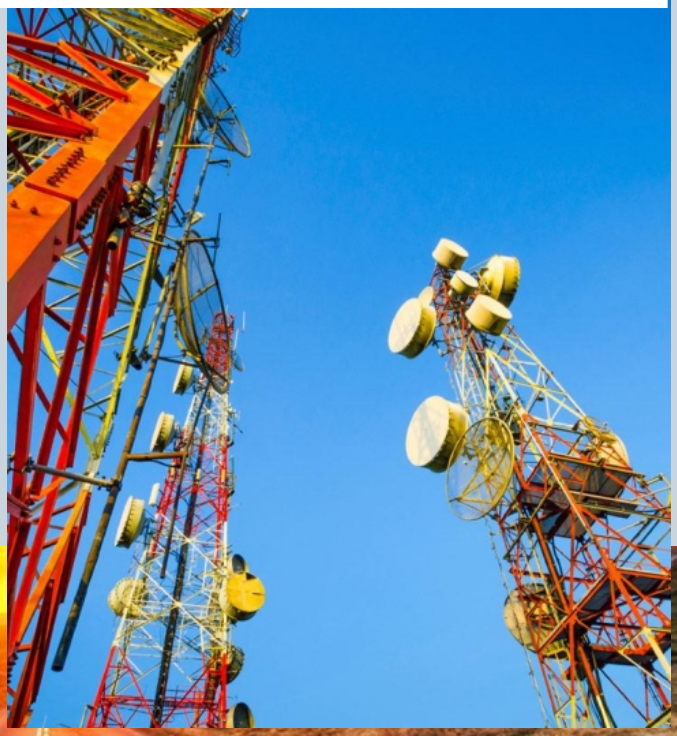
Completed Projects Photographs & Details



Project: Amansen Snr. High School, Ba School Dormitory, Floor Area: 1920m^{22}
Start Date: 2012 Client: Moe :: Completion: 2015 :: Contract Sum: Ghc 826,100.43

Project: Nkoranza Snr. High School. Classroom Block :: Floor area: 1,094m^2
Start Date: 2014 :: Client: MoE :: Completion: 2015 :: Contract sum: GHc 761, 101.05

Project: Fumbisi District Assembly Offices, Upper East Region. :: Floor area: 1,208m2 ::
Start Date : 2014 :: Client: MoE :: Completion: 2015 :: Contract sum: GHc 1,483,022.00

Project: Kwabre Snr. High school Classroom Block, Kwabre, AR. Floor area: 1,094m
Start Date: 2014 :: Status: 95% :: Contract sum: GHc 761,218.35 Client: MoE

Project: St. Stephens Snr. High School. School Dormitory Floor area : 1,290m²
Start Date :: 2014 :: Client: MoE :: Completion: 2015 :: Contract sum: GHc 730,000.00

Project: Community Day Snr. High School Techiman - Krobo, BA . :: Floor area: 5,268m
Start Date: 2013 :: Completion: 2016 :: Client: MoE :: Contract sum: :: GHc 5,348,038.60

Project: Gyaama Ampensa Sec. Sch. Classroom Block Floor area: 1,920m²
Start Date :: 2011 :: Completion: 2013 Client: MoE :: Contract sum: GHc 998, 437.79

Project: Affordable Housing Project, Type 'B' Building, Boyteiman . GA :: Floor area: 1,066m²
Start Date: 2015 ::Completion 2018 :: Contract sum: GHc 1,239,856.62 :: Client: SNNIT

Project: Affordable Housing Project. Type A Building. Kpong. :: Floor area: 4,736m²
Start Date: 2015 :: Status: 95% :: Contract sum: GHc 933,408.72 :: Client: TDC

Project: Community Day Snr. High School, Paga, Upper East . :: Floor area: 5,268m²
Start Date: 2014 :: Status: 70% :: Contract sum: GHc 6,016,332.08 :: Client: MoE

Project: Aburi District Assembly Offices, Eastern Region. Floor area: 1,208m^2:
Start Date : 2014 :: Client: MoLg ::Completion 2018 :: Contract sum: GHc 1,479,898.41

Project: 1400 capacity auditorium complex, Peki, VR.

Floor area: 1,208m^2
Start Date : 2014
Status: 30%
Contract sum: GHc 3,189,846.94
Client: MoE

Supply Of Furniture For School Projects

Supply Of Furniture For School Projects

Project: Rehabilitation of 2.5km Nautical Rd, Nungua.
Start Date :: 2012
Completion : 2014
Contract sum:
GHc 2,036,366.20
Client : MoE

Project: Rehabilitation of 2.5km Nautical Rd. 250m Under - Ground Drainage, 1.2m Double cell pipes Start Date :: 2012 Completion :: 2014
Contract sum: GHc 2,036,366.20 :: Client: MoE

Project: Giffard Road Relocation works. LT 1,2, & 3
Pipe works for Telecom cables
Start Date: 2012
Completion: 2014
Contract sum: GHc 5,209,543.63 ::
Client: Vodafone

Project: Nkrumah Circle Interchange Relocation works.
Start Date: 2014 :: Status: 95%
Contract sum: GHc 5,830,928.58
Client: Queroiz Galvao, Brazil
